Sexual Harassment Training Acknowledgement

I have completed the sexual harassment training through BSB University. I understand BSB Design's policy is that all employees should be able to enjoy a work environment free of discrimination and harassment. I also understand that sexual harassment in any form – verbal, non-verbal, physical or visual – is strictly against company policy and will result in corrective action up to and including termination.

I understand that refusal to cooperate with BSB Design policy may result in corrective action up to and including termination.
